

# SAFETY DATA SHEET

OIL WATERBORNE WAX EFFECT FRAGRANT

AOV2343/00

## Section 1. Identification

**Product name** : OIL WATERBORNE WAX EFFECT FRAGRANT

**Product type** : Liquid.

**Relevant identified uses of the substance or mixture and uses advised against**

**Supplier's details** : Wood Finishing Supplies  
LTD C/O CHEMFREIGHT  
4 Bostock Place, East  
Tamaki, Auckland  
New Zealand  
Ph: +64 9 2733949  
Fx: +64 9 9749375  
Mobile: +64 274 475656  
www.wfsupplies.co.nz

**Manufacturer** : SHERWIN-WILLIAMS Italy S.r.l.  
Via del Fiffo, 12 - 40065 Pianoro (BO)  
Italia - C.P. 18  
Cod. Fisc. e Reg. Impr. Bo  
08866930152

**Emergency telephone number (with hours of operation)** : 0800 243 622 (Chemcall, Responsible Care NZ) 24 hrs./365 days

**e-mail address of person responsible for this SDS** : regulatory.SWI@sherwin.com

## Section 2. Hazards identification

**HSNO Classification** : 6.9 - SPECIFIC TARGET ORGAN TOXICITY (SINGLE OR REPEATED EXPOSURE) - Category B

This material is classified as hazardous according to criteria in the Hazardous Substances (Minimum Degrees of Hazard) Regulations 2001 and has been classified according to the Hazardous Substances (Classifications) Regulations 2001.

This material is not classified as DANGEROUS GOODS according to criteria in New Zealand Standard 5433:2012 Transport of Dangerous Goods on Land.

### GHS label elements

**Signal word** : Warning

**Hazard statements** : May cause damage to organs.

### Precautionary statements

**Prevention** : Do not breathe vapor. Do not eat, drink or smoke when using this product. Wash hands thoroughly after handling.

**Response** : Call a POISON CENTER or doctor/physician if exposed or you feel unwell.

**Storage** : Store locked up.

**Disposal** : Dispose of contents and container in accordance with all local, regional, national and international regulations.

**Symbol** :

**Other hazards which do not result in classification** : Please refer to the SDS for additional information. Keep out of reach of children. Risk of spontaneous combustion. Spraydust, cloth and other contaminated organic material should be wetted and placed in a sealed metal container. Store in a fire-proof place.

**Version** : 2.02

**Date of issue/Date of revision** : 08, November, 2019  
SHW-A4-AP-HSN44-NZ

## Section 3. Composition/information on ingredients

**Substance/mixture** : Mixture  
**Other means of identification** : Not available.  
**CAS number/other identifiers**  
**Product code** : AOV2343/00

| Ingredient name               | % (w/w) | CAS number |
|-------------------------------|---------|------------|
| 2-Methoxymethylethoxypropanol | 2.5     | 34590-94-8 |
| 2-(2-Butoxyethoxy)-ethanol    | 2.5     | 112-34-5   |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

### Description of necessary first aid measures

- Inhalation** : Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
- Ingestion** : Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
- Skin contact** : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Continue to rinse for at least 10 minutes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.
- Eye contact** : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.

### Most important symptoms/effects, acute and delayed

#### Potential acute health effects

- Inhalation** : No known significant effects or critical hazards.  
**Ingestion** : No known significant effects or critical hazards.  
**Skin contact** : No known significant effects or critical hazards.  
**Eye contact** : No known significant effects or critical hazards.

#### Over-exposure signs/symptoms

- Inhalation** : No specific data.  
**Ingestion** : No specific data.  
**Skin** : No specific data.  
**Eyes** : No specific data.

### Indication of immediate medical attention and special treatment needed, if necessary

- Specific treatments** : Not available.  
**Notes to physician** : No specific treatment. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

## Section 4. First aid measures

**Protection of first-aiders** : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

See toxicological information (Section 11)

## Section 5. Fire-fighting measures

### Extinguishing media

**Suitable** : Use an extinguishing agent suitable for the surrounding fire.

**Not suitable** : None known.

**Specific hazards arising from the chemical** : In a fire or if heated, a pressure increase will occur and the container may burst.

**Hazardous thermal decomposition products** : Decomposition products may include the following materials:  
carbon dioxide  
carbon monoxide

**Hazchem code** : Not available.

**Special precautions for fire-fighters** : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

**Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

**Personal precautions, protective equipment and emergency procedures** : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment (see Section 8).

**Environmental precautions** : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

### Methods and materials for containment and cleaning up

**Small spill** : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

**Large spill** : Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

**Precautions for safe handling** : Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

## Section 7. Handling and storage

**Conditions for safe storage, including any incompatibilities** : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

## Section 8. Exposure controls/personal protection

### Control parameters

#### Occupational exposure limits

| Ingredient name               | Exposure limits  |
|-------------------------------|--|
| 2-Methoxymethylethoxypropanol | <b>NZ HSWA 2015 (New Zealand, 11/2017).</b><br><b>Absorbed through skin.</b><br>WES-TWA: 100 ppm 8 hours.<br>WES-TWA: 606 mg/m <sup>3</sup> 8 hours.<br>WES-STEL: 909 mg/m <sup>3</sup> 15 minutes.<br>WES-STEL: 150 ppm 15 minutes.<br><b>ACGIH TLV (United States, 3/2018).</b><br>TWA: 10 ppm 8 hours. Form: Inhalable fraction and vapor |
| 2-(2-Butoxyethoxy)-ethanol    |  |

**Appropriate engineering controls** : If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

**Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

### Individual protection measures

**Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

**Respiratory protection** : Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

**Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

**Eye protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.

**Skin protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

## Section 9. Physical and chemical properties

### Appearance

|  |   |
|--|---|
| Physical state                               | : Liquid.   |
| Color  | : Not available.  |
| Odor   | : Not available.  |
| Odor threshold                               | : Not available.  |
| pH   | : 7.4   |
| Melting point                                | : Not available.  |
| Boiling point                                | : 100°C (212°F)   |
| Flash point                                  | : Closed cup: 499°C (930.2°F) [Pensky-Martens Closed Cup]         |
| Evaporation rate                             | : 0.8 (butyl acetate = 1)   |
| Flammability (solid, gas)                    | : Not available.  |
| Lower and upper explosive (flammable) limits | : Lower: 0.9%<br>Upper: 14%                                       |
| Vapor pressure                               | : 2.3 kPa (17.5 mm Hg) [at 20°C]                                  |
| Vapor density                                | : 1 [Air = 1]   |
| Relative density                             | : 1.02  |
| Solubility                                   | : Not available.  |
| Partition coefficient: n-octanol/water       | : Not available.  |
| Auto-ignition temperature                    | : Not available.  |
| Decomposition temperature                    | : Not available.  |
| Viscosity                                    | : Kinematic (40°C (104°F)): <0.205 cm <sup>2</sup> /s (<20.5 cSt) |

### Aerosol product

|  |                   |
|--|-------------------|
| Type of aerosol                                | : Not applicable. |
| Heat of combustion                             | : 2.047 kJ/g      |
| Ignition distance                              | : Not applicable. |
| Enclosed space ignition - Time equivalent      | : Not applicable. |
| Enclosed space ignition - Deflagration density | : Not applicable. |
| Flame height                                   | : Not applicable. |
| Flame duration                                 | : Not applicable. |

## Section 10. Stability and reactivity

|                                    |  |
|------------------------------------|--|
| Chemical stability                 | : The product is stable.   |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.                      |
| Conditions to avoid                | : No specific data.  |
| Incompatible materials             | : No specific data.  |
| Hazardous decomposition products   | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

## Section 11. Toxicological information

### Information on the likely routes of exposure

|              |   |
|--------------|---|
| Inhalation   | : No known significant effects or critical hazards. |
| Ingestion    | : No known significant effects or critical hazards. |
| Skin contact | : No known significant effects or critical hazards. |
| Eye contact  | : No known significant effects or critical hazards. |

## Section 11. Toxicological information

### Symptoms related to the physical, chemical and toxicological characteristics

|                     |                     |
|---------------------|---------------------|
| <b>Inhalation</b>   | : No specific data. |
| <b>Ingestion</b>    | : No specific data. |
| <b>Skin contact</b> | : No specific data. |
| <b>Eye contact</b>  | : No specific data. |

### Delayed and immediate effects and also chronic effects from short and long term exposure

#### Acute toxicity

| Product/ingredient name    | Result      | Species | Dose       | Exposure |
|----------------------------|-------------|---------|------------|----------|
| 2-(2-Butoxyethoxy)-ethanol | LD50 Dermal | Rabbit  | 2700 mg/kg | -        |
|                            | LD50 Oral   | Rat     | 4500 mg/kg | -        |

#### Irritation/Corrosion

| Product/ingredient name       | Result                   | Species | Score | Exposure                | Observation |
|-------------------------------|--------------------------|---------|-------|-------------------------|-------------|
| 2-Methoxymethylethoxypropanol | Eyes - Mild irritant     | Human   | -     | 8 milligrams            | -           |
|                               | Eyes - Mild irritant     | Rabbit  | -     | 24 hours 500 milligrams | -           |
|                               | Skin - Mild irritant     | Rabbit  | -     | 500 milligrams          | -           |
| 2-(2-Butoxyethoxy)-ethanol    | Eyes - Moderate irritant | Rabbit  | -     | 24 hours 20 milligrams  | -           |
|                               | Eyes - Severe irritant   | Rabbit  | -     | 20 milligrams           | -           |

#### Sensitization

Not available.

#### Potential chronic health effects

|                              |   |
|------------------------------|---|
| <b>General</b>               | : No known significant effects or critical hazards. |
| <b>Inhalation</b>            | : No known significant effects or critical hazards. |
| <b>Ingestion</b>             | : No known significant effects or critical hazards. |
| <b>Skin contact</b>          | : No known significant effects or critical hazards. |
| <b>Eye contact</b>           | : No known significant effects or critical hazards. |
| <b>Carcinogenicity</b>       | : No known significant effects or critical hazards. |
| <b>Mutagenicity</b>          | : No known significant effects or critical hazards. |
| <b>Teratogenicity</b>        | : No known significant effects or critical hazards. |
| <b>Developmental effects</b> | : No known significant effects or critical hazards. |
| <b>Fertility effects</b>     | : No known significant effects or critical hazards. |

#### Chronic toxicity

Not available.

#### Carcinogenicity

Not available.

#### Mutagenicity

Not available.

#### Teratogenicity

Not available.

#### Reproductive toxicity

Not available.

#### Specific target organ toxicity

## Section 11. Toxicological information

| Name                       | Category   | Route of exposure          | Target organs                                      |
|----------------------------|------------|----------------------------|--|

### Aspiration hazard

Not available.

### Numerical measures of toxicity

#### Acute toxicity estimates

| Route  | ATE value    |
|--------|--------------|
| Oral   | 180000 mg/kg |
| Dermal | 108000 mg/kg |

## Section 12. Ecological information

**Ecotoxicity** : No known significant effects or critical hazards.

### Aquatic and terrestrial toxicity

| Product/ingredient name    | Result                              | Species                    | Exposure |
|----------------------------|-------------------------------------|----------------------------|----------|
| 2-(2-Butoxyethoxy)-ethanol | Acute LC50 1300000 µg/l Fresh water | Fish - Lepomis macrochirus | 96 hours |

### Persistence/degradability

| Product/ingredient name    | Aquatic half-life | Photolysis | Biodegradability |
|----------------------------|-------------------|------------|------------------|
| 2-(2-Butoxyethoxy)-ethanol | -                 | -          | Readily          |

### Bioaccumulative potential

Not available.

### Mobility in soil

**Soil/water partition coefficient (K<sub>oc</sub>)** : Not available.

**Other adverse effects** : No known significant effects or critical hazards.

## Section 13. Disposal considerations

**Disposal methods** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

## Section 14. Transport information

### Notice to reader

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Products shall not be repackaged, modified, or tinted except as specifically instructed by the manufacturer, including but not limited to the incorporation of products not specified by the manufacturer, or the use or addition of products in proportions not specified by the manufacturer. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs obtained from any other source.
